

Notice to All Residents

Duke Street Overpass Closure

The City of Dryden would like to advise residents that the Duke Street Overpass will be closed to vehicle and pedestrian traffic in both directions starting Monday July 19th to approximately October 15th, 2010. This closure is required for a complete replacement of the Duke Street/Highway 594 Overpass Bridge.

Motorists are reminded to use alternate routes such as King Street Underpass, Marguerite Street/ Gordon Road and Sandy Beach Road. Pedestrians may use the pedestrian overpass accessible from Queen Street or Highway 17.

Heavy trucks are requested to use Gordon Road only.

Motorists are encouraged to allow for additional travel time and to choose alternative routes to get to their destinations during the overpass closure.

The City of Dryden apologizes for any inconvenience, and appreciates your patience.
