

Sewer Drainage & Rebate Program Application

The City of Dryden now offers a rebate program to offer financial assistance for homeowners to take flood prevention measures. These measures would include installation of a sump pump, installation of a back-flow prevention valve or disconnection of weeping tile from sewer laterals. The program would cover 50% of the cost up to a set maximum limit.

Rebate Amounts	
Sump Pump	50% of the invoiced cost up to a maximum of \$1,500 including all labor, materials, permit fees & taxes.
Backflow Protection Device	50% of the invoiced cost up to a maximum of \$1,750 including all labor, materials, permit fees & taxes.
Weeping Tile / Roof Drain Disconnection	50% of the invoiced cost up to a maximum of \$500 including all labor, materials, permit fees & taxes.

Sewer Drainage & Rebate Program Rules

To take advantage of the rebate program the homeowner would have to meet the following criteria:

- Property must be connected to City of Dryden Wastewater Collection System.
- Applicant must be the property owner, not tenant.
- Applicant property must have a history of sewer back-up issues.
- Only one application per household, one time only for each rebate item.
- Roof drains, downspouts or weeping tile must not be connected to the sanitary or storm sewer system.
- Water account must be in good standing.
- A licensed plumber must be used to install a sanitary backflow prevention valve.
- Appropriate permits must be obtained from the Building & Planning Dept.
- Receipts and inspection reports/photos must be provided.
- Applications must be received by Sept. 30th of the current calendar year.
- Work must be completed and invoiced within the same calendar year.
- Rebates will be distributed on a first come first serve basis until annual funding is exhausted.
- Rebate applications must be approved by the city before work begins to ensure funding is available.
