

Aaron

Information Guide

Welcome to Aaron Provincial Park. Whether you are just traveling through the area or staying for a few days, your visit here means a lot to us.

Aaron Provincial Park is operated in cooperation with the City of Dryden. Currently Aaron Park is operated through a partnership agreement involving the Ministry of Natural Resources (Ontario Parks), and the City of Dryden. Budget constraints lead to the close of Aaron Park in the mid 1990's. Since then the City of Dryden has pursued the operations of the campground ensuring that the Park remains open to campers and day users. All of Ontario Parks policies and regulations still apply, and revenues remain in the Park to help offset operating costs and some infrastructure upgrades.

On behalf of the City of Dryden, the Park staff and myself ~ welcome to Aaron Provincial Park! The City of Dryden, through an agreement with Ontario Parks, is proud to be the operator of this facility. We recognize and value the cultural, social and recreational opportunities that a family oriented park can offer. Our goal is to make your visit a positive and enjoyable experience.

Relax and enjoy the abundant wildlife of the Park or try your hand at fishing on Thunder Lake. Picnic sites, trails and sand beaches are also available for your enjoyment.

For those interested in shopping, Dryden is a full service community situated only 10 minutes west of the Park. Please help us thank those businesses that have supported this tabloid, by mentioning their ad when you are shopping.

The staff of Aaron Park is fully committed to providing a unique, pleasant and safe facility. We welcome your comments. Please take the time to fill out the back of your camping permit and deposit it at the Gate House.

Mary Larson

Manager
 of Parks & Grounds
 City of Dryden.

Since the park reopened in 1997, visitation has been steadily increasing. Top quality customer service and a dedication by all involved have resulted in a clean, peaceful family campground.

The park also offers Ontario Parks merchandise for sale. Ice, pop, firewood and canoe rentals are easily accessible at the recently renovated gatehouse.

Recent capital infrastructure upgrades include a new pedestrian footbridge over Thunder Creek, a new and improved boat launch and ramp, and hopefully by the spring of 2004 an upgraded water treatment plant and distribution system.

We hope your stay here is a pleasant one, and remember . . . your comfort and safety is our number one concern!
